HEALTH PROMOTION

STRENGTHENING THE ENERGISER LES FORCES

PSP Health Promotion staff envision a healthy, equitable, diverse, and operationally ready CAF where all members can thrive. We bring this vision to life by working collaboratively with the CAF community and other stakeholders to take action on the determinants of health.

We empower the organization, its communities, and individuals within it to address barriers to health and wellness. We undertake policy, structural, and environmental changes to support a healthy culture.

Our services are evidence-informed, and based on content and best practices developed by subject matter experts from Canadian Forces Health Services and the Sexual Misconduct Support and Resource Centre.

Health Promotion courses are available to all CAF members. Where space and resources permit, or where necessary to support the health of a CAF member, invitations to participate in certain aspects of the program may be extended to the immediate family of CAF members and other members of the Defence Team.

Health promotion activities

Health Promotion activities including, but not limited to:

- addictions awareness and prevention, including alcohol, other drugs, gambling and tobacco;
- injury prevention and promotion of active living;
- nutritional wellness, including healthy eating, performance nutrition and weight management;
- social wellness, including stress management, anger management, family violence awareness and prevention, healthy relationships, and mental fitness and suicide awareness; and promotion of healthy lifestyles.
