

# #MyVoice: Impressions on the CAFConnection.ca launch

---

*I love the layout and ease of use. It was very easy to spot the topics that interested me and I appreciate the "Connect me to" menu.*

---

*It will take some getting used to, but I like the layout. It looks so much more updated than the familyforce site.*

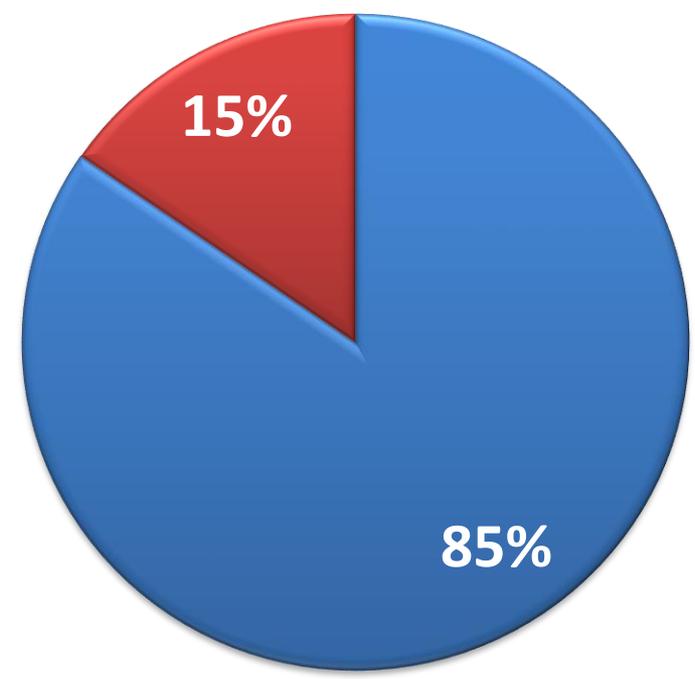

---

*I don't like it . It is hard to find things and there are too many layers to get to the info you want. I find using it on my mobile very challenging.*

---

*So much easier to navigate than the previous websites! And it's great that it's mobile friendly!*
