

#MyVoice: Which social media platform do you prefer for receiving info or engaging content from us?

I find the other social media platforms have other purposes. Facebook seems to be the easiest for information about MFRC activities and functions.

As long as the social media is not the main source of info. The website should be.

Using social media to announce changes and redirect users to the webpage to learn more about it.....It's much harder to retrieve a Tweet or a Facebook Post than a webpage.

- Facebook
- Newsletter
- Twitter
- Google+
- Pinterest
- Instagram
