

WINTER PROGRAM

CASA JARDÍN LANZAROTE, SPAIN

Casa Jardín is a luxurious four bedroom villa in the lovely town of Arrecife. The villa is spread over two floors with a huge balcony on the first floor and a large outdoor terrace on the lower floor. There is also a private heated swimming pool accessible by a gate. The villa is located 300 m away from the walking/biking path that longs the Atlantic Ocean. A 25 minute walk on the path will take you to the town of Arrecife.

Arrecife is a port town in the central east part of the Island. The city started out as a small fishing village in the 15th century eventually becoming the islands capital in the mid 1800's. There are two beaches in Arrecife, both at a walking distance from the villa. On the other side of the promenade you will find Playa Honda. Playa Honda is a 20-minute walk away, where you can enjoy nice beaches and relax at one of several restaurants facing the sea.

PLACES OF INTEREST

Cactus Gardens: The Cactus Garden is a magnificent example of an integrated architectural intervention into the landscape. Visitors can find more than 7,200 specimens of over 1,100 cactus species from many different countries.

National Park of Timanfaya: Eighteenth-century volcano with many craters. It is recommended to go early or to hire a Tour to avoid queuing.

Jameos del Agua Caves: Partially collapsed lava tube and cave system complete with concert hall, underground pond, and unique albino crabs. Night visit recommended.

Cuevre de Los Verdes Caves: The *Green Caves*, as they are known, were formed around 3000 - 4500 years ago by the eruption of a volcano.

El Golfo: El Golfo is a natural amphitheater open to the sea which was formed from the volcanic eruptions of 1730. The lagoon, which fills the base of this semicircular crater, is a result of flooding and the green color is from the algae that inhabit its waters.

Mirador del Rio: Viewpoint north of the island designed by César Manrique where visitors can admire the view of three small islets known as Chinijo archipelago.
