What to Look for in an Insurance Policy: Don't Get Caught Uncovered

When choosing insurance, it's important to get the **right coverage** for your needs. Here's what to watch for:

Coverage Amount

Does it provide enough for your family's needs or specific risks?

Premium Costs

Can you afford the premiums over time?

Exclusions

What risks or activities **aren't covered?** (Hint: SISIP covers high-risk military duties.)

Renewability

Can you renew without undergoing a medical exam (and at what cost)?

How much insurance do you need?

Your insurance should be enough to pay off your family's debts and sustain their lifestyle even if you are no longer there to provide for them.
